RE: Request for release of Reclaimed land by Simplot Phosphates LLC

Dear Mr. Baker:

This letter supplements my October 20, 2004 letter requesting for release of reclaimed land at Simplot Phosphates' Vernal operations. There was an error of omission in area 4. This letter revises area 4 and reduces the area requested for release from 2.6 to 2.4 acres. Excluded from this area is the water tank, access road and surrounding disturbed area.

Please find enclosed a revised 1"=500' scale map with the requested release areas as per our inspection. I have labeled the areas with numbers 1 through 5 corresponding to the order in which we visited and inspected them. There are a total of 114.7 acres broken out as:

<u>Area</u>	<u>Acres</u>
1	85.9
2	3.6
3	20.8
4	2.4
<u>5</u>	<u>2.0</u>
Total	114.7

Please contact the undersigned OR Ms. Mary Shue here at Simplot, with any questions you may have regarding this request.

Sincerely,

John Spencer, P.E.  
Environmental / Senior Mining Engineer
